EDUCATION

Petroleum Engineering
University of Portsmouth

09/2018 - 07/2021   *Southsea,Portsmouth,Uk*

Courses

- Thesis: developed a computer program using python, tinkter and matplotlib

Computer Programmer
Algonquin College

01/2024 - Present   *Ottawa,Ontario,Canada*

Courses

- Java
- Databases
- Technical Math for Engineers

WORK EXPERIENCE

IT Support
Casa City

09/2021 - 08/2022   *Accra,Ghana*

*Construction Company*

Achievements/Tasks

- Ensured strict data security and access controls by managing permissions for the company's OneDrive cloud storage, allowing only authorized team access and routinely updating passwords to safeguard sensitive information.
- Provided technical support and troubleshooting for software and hardware issues, ensuring minimal downtime and maintaining operational efficiency.
- Assisted in website content management and updates, aligning with company objectives.

SKILLS

Postman · Effective Communication · Express.js · HTML · Vanilla JS · React.js · CSS · Python · Problem Solving · Ajax · Java · Git/Github · Great Team Player · RESTful API · Node.js

PERSONAL PROJECTS

Intuitive Weapon Detection System: 'Mr. Brains' Web Application

- Mr. Brains Web App: Currently building a full-stack platform for weapon detection in multimedia, crafted with React, JavaScript, and Clarifai API. From initiation with Vite to a robust front-end and ongoing Node.js/Express.js backend development.

RoboFriends Web App

- Engineered a responsive React web application leveraging AJAX calls for live API data retrieval, utilizing lifecycle methods in class components to ensure real-time search functionality within a robot directory.

Live Orbital Tracker: ISS on the Move

- Developed a real-time tracking web application for the International Space Station using React.js, Leaflet.js, and asynchronous API calls, demonstrating rapid adaptation to new libraries and advanced use of React hooks for dynamic data presentation.

CERTIFICATES

Complete python developer (01/2020 - 06/2020)

NFT 101 : Introduction to NFTS (01/2024 - 01/2024)

PCEP – Certified Entry-Level Python Programmer
